Why Staz ???

- **Unlimited Lifetime Storage**
- **Backup Internal, External and Network Drives**
- **No Backup Limitations**
(No capping or file type limitations)
- **Simple Restore**
- **Great for Photographers**
(RAW image support and previews)

FEATURES

External and Network drive backup

Staz fully supports Network and external drive backup. You can disconnect your drives and store them away and Staz will never mark these files as missing or deleted.

Real Security

Staz encrypts your files before they leave your machine and stores them on encrypted servers using military grade 256 AES Encryption.

Unlimited Lifetime Storage

Staz is designed to keep your files stored for lifetime. Your files are duplicated among multiple facilities across the globe for the reliability your long term data needs.

Hybrid+

Double your backup protection with Hybrid+. The easiest way to save a local copy of your backup to your server, network or external drive automatically.

No backup limitations

With Staz your backup will upload with the full upload speed. All your files, regardless of type or file size are automatically protected.

Packed with features

Set your own schedule, file filtering, open file backup, upload speed limit, and more

Great for Photographers

Staz is designed to backup photos and generates photo previews of all your camera photos to view from a centralized location on the web.

Archive Computers

If you are retiring an older computer, just archive it to restore data from it anytime without additional licensing.

Simple Restore

With Staz you can restore a single file or everything. Just select what you want to restore, after 3-5 hours, the restore will begin without any intervention.
